

To: Our Dealers
From: Lancaster Maid Cabinets, Inc.

We are pleased to announce a new touch up product that we are now offering for our cabinetry. Effective immediately, you can order spray cans of acrylic touchup for select painted finishes, as well as a clear acrylic for any standard (medium) sheen finish.

We have found these to be a very useful and user-friendly method of touch up, particularly for the popular painted finishes which tend to show wear and tear more visibly than stained and clear finishes.

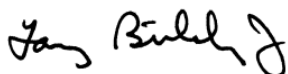

In addition to the clear acrylic, spray cans are color matched and available for the following pigmented conversion varnish finishes:

Dover White	Blending White
Antique White	White

Pricing has been established at 26 List per can for any of these colors (including the clear). Please request these at the time of order placement to ensure availability when your order ships. There is no limit on the quantity that you may order. We recommend these for installers of our product or anyone who may have the occasional need to perform field touchup of our products.

Thank you for your business. We appreciate you, and continue to search for the best ways to meet your needs.

Best Regards,

Larry Binkley Jr
